Letter from the editor

I love a good story.

I especially love it when that story is told by a talented artist.

Could be a photographer, a model or any other artist.

In this magazine, you'll see only standout artists, including many very well known ones!

Maybe I have no talent myself except for being able to enjoy and recognize it in others. And this is how it is going to be!

The only constant in life is change. Things often do not go according to plan. Trust me, I know.

My younger self would have had a hard time believing that it all works out. But it almost always does. This is our second year of publishing and our third publication. Le Desir Magazine is a rewarding life project. But, in case you didn't know, it was born out of job hardship and drastic changes in these uncertain times we live after the outbreak of the pandemic in 2019. message from the Publisher in Chief of Untold Magazine, Constantinos Mouchtaris: "I met this amazing wedding photographer during my shoot on the beach. We got to put this on paper..." It was not surprising that a random chat on the beach turned into an article.

I believe that everyone has the desire to share their work, art and story and this is what our magazine is all about.

Promoting talented artists and sharing their work to the world.

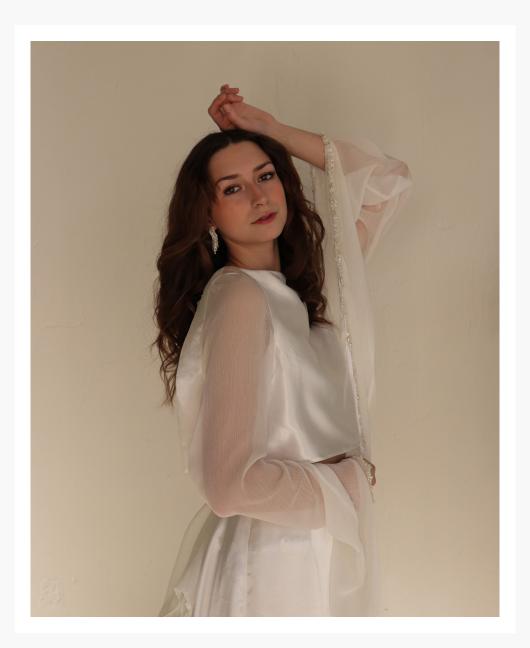

If you have something to "spare," I'd love to hear from you.

INTERVIEW WITH THE TALENTED PHOTOGRAPHER/ FASHION DESIGNER

JILLIAN LENAE HACKETT

Can you tell me a little about you?

My name is Jillian Hackett. I am am a 21 year old fashion designer and photographer based in Texas.

I am the owner of the clothing label, Lillian Jenae Designs which focuses on contemporary ready-to-wear womenswear and custom bridal designs. I am also a self taught portrait photographer, as I wanted to acquire the necessary skills which would allow me to be responsible for capturing my own designs.

How and when did you get into your profession?

I started pursuing fashion design very early on as a high school student and am currently pursuing my bachelors degree. As for photography I have always loved photography but within the last two years began pursuing it in a professional light, in growing my portfolio and refining my skillset.

What does photography mean to you?

Photography for me is incredibly influential in all areas of my creative process, for me photography serves as the lease in which I view and document my personal progression and vulnerability of my subjects. This creative medium is a culmination of my inspiration colliding with my end result.

Could you describe your style in three words?

Whimsical, Eclectic, and Elegant.

Where do you get inspiration from?

For my inspiration, much of it is derived from landscapes and travels and the feelings that I have when engaging with those environments. I want to evoke a feeling alongside a particular aesthetic when capturing a specific subject.

Do you think in advance what you want in the picture ?

Each photoshoot for my brand, Lillian Jenae Designs, is meticulously planned shot for shot based on the garment, environment, and feeling I am aiming to share. I have a tendency to work alongside my model to find stances and poses that present an elegant perspective while still feeling natural and comfortable.

Studio, on location or both?

This shoot was held in a creative studio/ event space, located in Lubbock Texas. (Refind Studio)
